SOLUTIONS FOR BUSINESS PRINTING

DK-670

Retransfer print technology is the next level of Direct-to-Card technology. First, the image is printed on a film, then the image is transferred from film to the card. This technique is suitable for edge-to-edge printing, heavy duty printing, improves reliability and thus suitable for a large variety of card types, such as:

- Travel ID cards
- Identity cards
- Student cards
- Entry permit cards
- High quality card applications
- Finance cards
- Resident cards
- Driving Licenses
